DME Bracing Services

Our Pain and Spine Specialists team offers comprehensive bracing services designed to support patients in their journey toward improved mobility and comfort. We are proud to provide back, neck, knee, hip, and wrist braces.

Mental Health and Chronic Illness Recovery

• Stellate Ganglion Block Injections

The SGB procedure involves an injection of an anesthetic into the neck. This injection blocks the sympathetic nervous system responses relieving symptoms of PTSD and Long COVID.

• TMS Therapy For Depression

TMS is an FDA-approved treatment that offers hope for long-lasting relief from depression.
